

# INTERMEDIATE ACADEMY

## Third, Fourth, and Fifth Grades

Our Intermediate Academy consists of grades three through fifth grade. We have one to two classrooms at each grade level with teaching experience from four to 30 years.

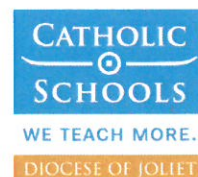

While our Primary Academy builds foundational skills, our Intermediate Academy spirals their learning from these skills. Continuing with our Pearson enVision math, this Academy learns multiplication, division, fractions, geometry and pre-algebra. Our reading program varies from novel study to focused reading application.

As with the Primary Academy, the center of the Intermediate Academy is their study of religion; with a focus on the four pillars of Catholic identity — Catholic faith, worship, life and prayer.

A big change for our fifth graders is they become eligible to participate in Cross Country, Volleyball and Basketball under our Athletic Department.
