

PRIMARY ACADEMY

FULL DAY Kindergarten, First & Second Grades

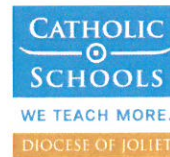

Our Primary Academy consists of grades Kindergarten through second grade. We have one to two classrooms at each grade level with teaching experience from two to 20 years.

Our students are very busy reading and writing with their new Super Kids program. Our kindergarteners were learning about two different sentences this week - telling and asking. Our first graders were organizing their paragraphs on a snowman for a pre-write. Second graders were using chapter books as part of their Super Kids curriculum.

All the children learn math with enVision - a spiraling program from Pearson. In addition to our core subjects of reading, writing, math, science and social studies, the focus of our Primary Academy is religion. A very exciting part of the Religion curriculum for our second graders is preparing for the sacraments of Reconciliation and First Holy Communion. All the children in our Primary Academy learn the stories of the Bible with a large focus on our saints

*St. Matthew
Parish School*
